3D Systems Announces VisiJet® Black

- Real Performance, Real Color Choice, For Real Parts, Fast -

ROCK HILL, South Carolina, December 1, 2011 – [3D Systems](#) Corporation (NYSE:DDD) announced today VisiJet® Black , a new black colored [print material](#) for its ProJet™ 6000 capable of printing real functional and snap-fit plastic parts . This high-performance, accurate [VisiJet® Black](#) print material is on display at EuroMold 2011, November 29th – December 2nd, 2011 in Hall 11, Booth F110 and will be available for purchase during the first quarter 2012.

“We are pleased to make VisiJet® Black available for our new [ProJet™ 6000](#), the first ever cross-over 3D printer to deliver professional grade SLA® part performance,” said Steve Hanna, Director Global Sales and Marketing Materials, 3D Systems. “VisiJet® Black is designed to print functional snap-fit parts that deliver bold visual impact together with exceptional surface finish and high definition accuracy, empowering our customers to design and make better products faster.”

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These

solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
